# WBD Alerts App Installation Instructions

WBD Alerts is powered by AlertMedia. Download the "AlertMedia" app from your device's app store to ensure that you receive push notifications during critical events.

1	Search for "AlertMedia" in your device's app store and download the app. Please note that the app does not feature WBD branding at this time.	
2	Launch the app. If prompted click "Allow" to ensure that you receive important alert push notifications.	
3	Select "My company uses single sign-on (SSO)" .	
4	Once prompted on the "SSO Login" page, enter "wbd" as your company domain name.	
5	That's it! You are signed in. With the AlertMedia app installed, we'll be able to push emergency notifications to you via the app.	

If you have any questions, please contact us at **wbdready@wbd.com**.
